## Description

Jutrzenka is a little-known river, and for no good reason as with the right water level it provides a lot of entertainment. Stone rapids (WW 1+), water thresholds, interesting piled trees, the remnants of the old bridges wait for you here, all this in a forest scenery of Słupia Valley Landscape Park. The route is suitable only for a single kayak and kayakers with much experience - those who have already attended more than one trip and are aware of the dangers of rivers with piled up trees.

You will swim under and over fallen trees, overcome numerous underwater boulders and stones ... What can I say - it is simply one of the most difficult sections in Pomerania ... Adrenaline!
