Description

This weekend, you will have the opportunity to get to know two sections of Wda - one of the most popular rivers in Pomerania. The first day is calm, you will experience both the charms of the river as well as taste canoeing on the lake – at the same time calm and a little more restless after entering Lake Radolne - one of the lakes constituting Kashubian Little Sea. There will be a stopover in Wdzydze Kiszewskie in stanitsa of PTTK, where you have to regenerate energy for the second day as you won't succeed without it. The following day involves getting to know the lakes located in the area Wdzydze from the perspective of a kayaker - on the one hand, you will be aware of your own insignificance in comparison to the vastness of the water around you, on the other hand, everything will be in your hands. You will often struggle with the wind and the waves on the section Wdzydze - Borsk tend to be high. At some point you will have to face the wind as well.
