Four-day long canoe trip on Słupia's lower section. It is a quiet, but varied route, without cumbersome transportation of kayaks. The route starts at the largest hydroelectric power station on the river, in Galaznia Mała - really worth visiting. Further the route leads through lakes near two consecutive power stations Konradowo and Krzynia. Then the river, meandering through the dense forests of the Słupia Valley, protected as a nature park, leads us to Słupsk. We pass through the center of city rich in monuments and populated by hundred thousand people. Here it is worth seeing the Renaissance castle of the Dukes of Pomerania with the largest collection of works by Witkiewicz. Accommodation in the city is provided by the Sport and Recreation Centre, in close proximity to the river, at a charming city park.

The section below Słupsk is also very interesting. The river carries a lot of water, there are difficult passages, with the fast current and trees submerged in the waters. In Bydlin there is one of the most beautiful camping sites on the entire river. Słupia's lower route does not leave us time to get bored! "Icing on the cake" will be the end of the route in the Baltic Sea on beach in Ustka, of course, provided good weather and less traffic (you have to get permission to enter the sea port from port authorities). Certainly you will remember the faces of tourists when you get off on the sandy beach...

2. Leśny Dwór - Słupsk - 23 km

3. Słupsk - Bydlino - 18 km
