

Single kayaks

Single polyethylene kayaks – freedom, control and safety

At **eKajaki.pl**, we focus on equipment that offers **full control of the kayak**, a high level of comfort while paddling and a real sense of safety on different types of rivers. That is why in our offer you will find only **durable polyethylene kayaks**, proven during one-day, weekend, technical and multi-day kayaking trips.

We currently offer **3 single kayaks**, selected so that everyone can choose the model best suited to the planned route, paddling style, level of experience and amount of luggage: **Prijon Cruiser CL 430**, **Smart S** and **Splash 300**. This set makes it possible to choose a kayak both for calm touring routes and for small, winding, obstacle-filled and more technical river sections.

Why choose our single kayaks?

- made of durable and impact-resistant **HDPE polyethylene**,
- safe, stable and comfortable also for beginner paddlers,
- provide greater independence and full control over the paddling line,
- perform well both on lowland rivers and on winding, obstacle-filled sections,
- allow you to match the kayak to your paddling style: from touring with luggage to dynamic paddling on obstacle-filled rivers.

1. Single polyethylene kayak Prijon Cruiser CL 430

Prijon Cruiser CL 430 is a very good choice for people who are looking for a **comfortable touring kayak** for calmer rivers, lowland sections and longer trips with luggage. This is a model that gives a sense of safety, tracks well and allows calm, predictable and comfortable paddling even for less experienced kayakers.

Thanks to its length, large cockpit and luggage space, the Cruiser performs very well during **one-day and multi-day kayaking trips**. It is a kayak for people who value **easy entry and exit**, calm

handling and the possibility of taking the necessary gear on the route.

A big advantage of this model is also its versatility. The Cruiser works very well in recreational touring, on rivers of a gentler character and wherever comfort, storage capacity and stable paddling matter more than very fast manoeuvring.

It is a great choice for kayakers who want to paddle **at their own pace**, have more space around them and use a single kayak that gives a sense of freedom without losing safety.

Key advantages of Prijon Cruiser CL 430:

- a very good touring kayak for calmer rivers and longer routes,
- stable and safe for beginners and intermediate paddlers,
- tracks well and paddles predictably,
- large cockpit makes entry and exit easier,
- closed rear storage hatch,
- possibility of carrying additional luggage in the front,
- comfortable seat and fixed „saw-tooth” footrests,
- possibility of fitting a spray deck.

Technical data:

- length: **430 cm**
- width: **68 cm**
- weight: **23 kg**
- cockpit: **110 x 50 cm**
- storage hatch: **35 x 29 cm**
- footrests: **Yes : fixed – saw-tooth type**
- material: **HDPE polyethylene**

2. Single polyethylene kayak Smart S

Smart S is a very interesting single kayak for people looking for a **combination of stability, lightness and comfortable touring**. This model performs well on calmer rivers, recreational sections and routes where ease of handling, seating comfort and freedom during an all-day paddle matter most.

It is a safe and beginner-friendly kayak, but at the same time one that also gives a lot of satisfaction to more experienced kayakers. Its strong points are **stability, high buoyancy, length, high sides and a spacious cockpit**, which gives a feeling of confidence on the water and works very well during recreational and touring trips.

Smart S is a good choice for people who want to paddle solo in comfort, take basic luggage and use a kayak that is easy to handle. Additional equipment such as a **storage hatch, fixed saw-tooth footrests** increase the functionality of this model in practical use.

It is a great option for people looking for a single kayak with a modern character, good stability, straightforward handling and comfort on touring routes.

Key advantages of Smart S:

- stable and safe kayak for beginners and intermediate paddlers,
- light and comfortable for recreational touring,
- high buoyancy and high sides improve the sense of safety,
- spacious cockpit increases comfort of use,
- comfortable contoured seat,
- fixed saw-tooth footrests
- storage hatch
- keeps a straight line easily and manoeuvres well on the water.

Technical data:

- length: **360 cm**
- width: **65 cm**
- side height: **35 cm**
- weight: **26 kg**

- capacity: **170 kg**
- cockpit: **102 x 58 cm**
- footrests: **YES**
- storage hatch: **YES**
- material: **HDPE**

3. Single polyethylene kayak Splash 300

Splash 300 is a kayak for people who like **greater manoeuvrability, quick response and confident handling** on the river. This model performs very well on **small, winding rivers**, obstacle-filled sections and anywhere you need to avoid obstacles efficiently, make quick line corrections and have full control over the kayak.

Although this design comes from whitewater kayaking, in Polish conditions it has also proven itself very well in **obstacle-rich touring and more technical lowland trips**. It is a model willingly chosen by active paddlers who are looking for a single kayak that gives a lot of fun on the water and allows them to better „read“ and "feel" the river.

Splash 300 works well both for experienced kayakers and for those who want to move to a higher level of manoeuvring. Thanks to its compact design, shaped cockpit and adjustable footrests, it allows dynamic paddling while still maintaining comfort and safety.

It is a very good choice for people looking for a kayak for **more adventurous routes**, small forest rivers, sections with obstacles and trips where compact size and quick reaction on the water matter.

Key advantages of Splash 300:

- very good manoeuvrability and ease of handling,
- excellent for small, winding rivers and obstacle-filled sections,

- a whitewater-style kayak that also performs well in obstacle-rich touring,
- adjustable footrests allow a better paddling position,
- possibility of fitting a spray deck,
- drain plug makes it easier to empty water,
- easy access to the rear section allows you to carry small handy gear,
- light and very durable construction.

Technical data:

- length: **300 cm**
- width: **63 cm**
- weight: **22 kg**
- cockpit: **86 x 49 cm**
- footrests: **adjustable**
- material: **HDPE polyethylene**

Single kayak Splash 300

Comparison of single kayaks
