

# Before you book

Minimum of complications - maximum satisfaction!

For the trip to be successful you need the appropriate kayaks, delivered and received in the right place and time. That's our job, you have to do only three things: choose the route, make reservation, and paddle : -)

For maximum simplification of booking we have developed a special system, which is available on our home page. We encourage you to use it. Description of using it "step by step" and a list of answers to frequently asked questions can also be found on our website.

The whole booking process, together with the payment of the advance, is possible to be conducted online. Our system will send you the emails with all acknowledgments and information. If you have questions, please contact us by phone (510 808 333) and e-mail (info @ ekajaki.pl). We provide comprehensive assistance.
