Description

If you crave for a taste of madness in a kayak then face Sulęczyńska Valley! The valley is the main attraction of this route. If you like it, you can immediately repeat it. Strong emotions are guaranteed! And what about having a bath?

This part of Słupia is very difficult. Extreme. Rapid current, rapids WW1+, Sulęczyńska Valley, WW 1-2, a number of obstacles in the form of piled up trees, underwater stones, water thresholds and sometimes shallows requiring towing of the kayak - great, right? The whole adventure takes place in the setting of Słupia Valley Landscape Park.

Along the way there is one more place where you have to carry the kayaks (at the end of Sulęczyńska Valley we carry the kayaks on right side) and, depending on the water level, a few not troublesome situations requiring carrying the kayaks over the fallen trees.

This route is for very experienced kayakers only after many routes with piled up trees and who are aware of the dangers of canoeing on rivers of the mountain nature. Such individuals should feel cordially invited!
