Description

Weekend spent on these parts of the river will provide you with excitement, primarily on the upper part of the river from Kajlandia to Parchowo as well as charm you with the beauty of nature and unusual closeness to nature, which can be experienced while canoeing down Słupia. During the trip you will be surrounded, above all, by beautiful forests, sometimes the river will reach an outdoor area or your task will be to go through a lake. The nature-related value of this section can be proved by the fact that the village Soszyca situated at the end of the section you are going to cover during the weekend is at the same time the beginning of Słupia Valley Landscape Park. In this expedition you will be often accompanied by wild animals, you have to prepare well to overcome obstacles such as fallen trees, necessity of carrying the canoes in fixed places (you have to transport the kayaks from Bylina to Soszyca) and the rapid waters and on the contrary - the parts where you will be forced to row. To sum up – suitable for everyone!
