Nogat

Start:	Biała Góra
Zakończenie:	Oślonka
Długość rzeki:	62 km
Długość szlaku:	62 km
Czas spływu:	3 dni
Preferowany sprzęt:	jedynki, dwójki, kanadyjki

An original alternative to the typical trip - a few-day-long canoe trip on rivers constituting Pętla Żuławska (Żuławska Loop). We can start the trip on quiet and dignified Nogat, at the historic complex of sluices and new marina in Biała Góra (White Mountain). After passing majestic castle in Malbork, new marina Północny Park (North Park), three sluices (Szonowo, Rakowiec Michałowo) as well as the Hydroelectric Power Station Rakowiec, you will reach the mouth of the Nogat. Without entering the Vistula Lagoon (very dangerous for small units!), we turn in direction of Szarpawa to Oślonka. From this place we are already close to a water node in Rybino,, where it is possible to make a short circular trip to Sztutowo and end the route at sluice Gdansk Głowa. Both Szarpawa and Wisła Królewiecka are branches of Vistula Delta. There are wide, basically without mainstream and very picturesque places. The areas we are to cross are rarely inhabited and full of charming places and interesting sights. If we prolong the route for two days (approx. 30 km) it is possible to reach the Vistula River and city center of Gdańsk via Martwa Wisła (Dead Vistula).

Suggested route:

1. Biała Góra – Malbork (21 km)
2. Malbork – Jazowa (25 km)
3. Jazowa – Oślonka (17 km)
